

AGM Battery
 Part Number: PC1200
 Nominal voltage: 12.85 Volts
 Description: Extreme conditions, high purity lead-tin alloy, dry cell technology, engine start & cycle

Details	
Case	Flame retardant cell containers, external metal jacket with decals.
Terminals	Removable SAE Automotive terminals with heli-coil thread and M6 stainless Allen key head bolt.
Colour	Cover: Odyssey Red; Case: Black; Sleeve (metal): Odyssey Red

Dimensions	
Length	200 mm
Width	170 mm
Height (inc terminals)	173 mm
Weight	17.4 Kg

Power Figures	
PHCA 5 second (Pulse Hot Cranking Amps)	1200 amps
CCA (0°C)	550 amps
HCA (26.6°C)	860 amps
MCA (0°C)	725 amps
Capacity (20 hour / C20)	44 ah
Reserve Minutes	78 mins
Internal Resistance	4.5 mΩ
Short Circuit Current	2600 amps

Life Cycle	
Design Life	8-12 years
Cycles @ 80% D.O.D.	500 cycles
Cycles @ 100% D.O.D.	400 cycles
Operating Temperature	-40°C to 80°C

Specifications subject to change without notice.
