

AGM Battery
Part Number: PC2150
Nominal voltage: 12.85 Volts
Description: Extreme conditions, high purity lead-tin alloy, dry cell technology, engine start & cycle

Details

Case	Flame retardant cell containers, external metal jacket with decals.
Terminals	Brass 3/8" Studs.
Colour	Cover: Odyssey Red; Case: Black; Sleeve (metal): Odyssey Red

Dimensions

Length	330 mm
Width	172 mm
Height (inc terminals)	239 mm
Weight	34.1 Kg

Power Figures

PHCA 5 second (Pulse Hot Cranking Amps)	2150 amps
CCA (0°C)	1090 amps
HCA (26.6°C)	1545 amps
MCA (0°C)	1370 amps
Capacity (20 hour / C20)	100 ah
Reserve Minutes	200 mins
Internal Resistance	2.2 mΩ
Short Circuit Current	5000 amps

Life Cycle

Design Life	8-12 years
Cycles @ 80% D.O.D.	500 cycles
Cycles @ 100% D.O.D.	400 cycles
Operating Temperature	-40°C to 80°C

Specifications subject to change without notice.
