

AGM Battery  
 Part Number: PC310  
 Nominal voltage: 12.85 Volts  
 Description: Extreme conditions, high purity lead-tin alloy, dry cell, motorcycle engine start

Details	
Case	Flame retardant cell containers with decals.
Terminals	4 mm Threads
Colour	Cover: Odyssey Red; Case: Odyssey Red

Dimensions	
Length	138 mm
Width	86 mm
Height (inc terminals)	101 mm
Weight	2.7 Kg

Power Figures	
PHCA 5 second (Pulse Hot Cranking Amps)	310 amps
CCA (0°C)	100 amps
HCA (26.6°C)	200 amps
MCA (0°C)	155 amps
Capacity (20 hour / C20)	8 ah
Reserve Minutes	9 mins
Internal Resistance	27.1 mΩ
Short Circuit Current	455 amps

Life Cycle	
Design Life	8-12 years
Cycles @ 80% D.O.D.	500 cycles
Cycles @ 100% D.O.D.	400 cycles
Operating Temperature	-40°C to 45°C

Specifications subject to change without notice.
