

ELF POWER NAUTIC

Prediluted oil specially developed for lubricating 2-stroke outboard motors.

APPLICATIONS

**2-stroke outboard
gasoline motors**

- Suitable for all 2-stroke outboard gasoline engines. It should be mixed with the fuel according to the manufacturer's instructions.

PERFORMANCE

TC-W3[®]

- Officially approved under number: TC-W3[®], recertified R-56622.
- Tested using the NMMA (National Marine Manufacturers Association) procedure.

CLIENT ADVANTAGES

**Improved piston
cleanliness**

Blue in colour

- Excellent protection against piston wear and binding.
- Outstanding cleanliness of engine internals, particularly the piston and exhaust port; no sludge produced.
- Enhanced protection against corrosion and rust.
- Low viscosity that favours suspension in the fuel and ensures a stable uniform mixture.
- Good stability in lead-free gasolines.
- Enhanced antifreeze performance.

CHARACTERISTICS

Colour	blue
SG at 15°C	0.874
Kinematic viscosity at 100°C	8.8 mm ² /s (cSt)
Pour point	-36 °C
PMCC flash point	81 °C

(Typical values given as an illustration)

This lubricant, when used according to our recommendations and for the purpose for which it is intended, presents no particular hazard.

A safety data sheet complying with current EC legislation can be obtained from your local commercial adviser.
